Index

Abbreviation used: AM = asset management.

- academia (and academics), 6, 45, 46, 47, 50, 59, 60, 202
 - research *see* research
- accidents *see* incidents
- accountability, 131–132
- activities
 - chain of, 40
 - coordinated, organisations, 11, 29, 214
 - life-cycle, 50–51
- adaptation to climate change, 3, 150–151, 153, 155, 157–159
- agility, organisational, 192
- alignment, 129, 216, 221, 222
 - leadership, 128
 - subjects agreed by GFMAM, 214, 216
- AMCF (Asset Management Competences Framework), 95–117
- AMCL (Asset Management Excellence Model), 38
- architecture
 - business, 170
 - enterprise, 169–170
 - information system, 170
 - technology, 170
- artificial intelligence/AI, 165–166
- asset information systems, 22
- asset management (basic references)
 - competence *see* competence; competence framework
 - culture *see* culture
 - definition/meaning, 11, 12, 19, 90, 214
 - development (from past to present), 11–28
 - effective *see* effective AM
 - good *see* good AM
 - importance, 2–3
 - its name and changing it, 196–199
 - planning *see* plans
 - policy, 105
 - poor, 4, 18, 30, 31
 - practice, developing, 6–7
 - research *see* research
 - rise, 210–214
 - six main areas, 19–26
 - why?* questions, 5
- assumptions
 - with mathematical modelling, 59
 - of stationarity, climate, 145–146
- assurance, 14, 26, 115, 216
- audit, 26, 39, 80
- Australia
 - climate change risk assessment, 153–154
 - regulations and laws, 16
 - smart infrastructure (NSW), 169
- availability, 49, 52
- behaviours
 - change/changes, 70–72, 79, 121–122, 124–126, 133, 134, 136
 - competence frameworks, 105, 107
- best practices, 5, 6, 35, 37, 42, 108, 143, 202
- Big Picture*, 210, 211, 212, 221, 222
- British Standards Institute, 171
 - BS 1192:2007, 175
 - PAS *see* Publicly Available Specification
- BSI *see* British Standards Institute
- building information modelling (BIM), 52, 55, 57, 164, 177, 189–190
- buses, intelligent assets, 165
- business(es), 27
 - architecture, 170
 - case, 26, 56, 100, 127, 220
 - critical function (business critical), 210, 214–221
 - mainstream business practice, 3–4
 - management theory, 40
 - models, 57–58
 - plan, 219, 220–221, 224
 - what AM does for, 217, 218, 229

- Canada (Ontario), regulations and laws, 16
- capital expenditure (capex), 52, 211
 - maintenance, 219, 220
- carbon (and carbon dioxide), 54, 146, 148, 177
- change (including shifts), 57–58
 - behavioural, 70–72, 79, 121–122, 124–126, 133, 134, 136
 - cultural, 70–72, 79, 83
 - digital AM and case for, 186–189
 - leadership *see* leadership
 - management, 76–77, 123, 126
 - models, 76–77
 - organisational, 79, 116, 133
 - smart infrastructure and case for, 177–178
- children and their education, 196, 205–206
- climate (organisational), 70, 78, 83, 84
- climate change, 3, 42, 143–162
 - response/adaptation to, 3, 150–151, 153, 155, 157–159
 - smart infrastructure and, 163–164
- collaboration, 171, 175, 178
- competence(s), 23, 37, 95–117
 - assessment, 104, 108–109
 - management, 97–98, 99, 109, 110, 111, 112
 - requirements, 96, 101–102, 104, 105–109, 111–112, 113
 - structure, 101–102, 104, 105
- complexity, 27–29, 169, 177
 - increasing, 59, 167
- compliance, 32–33, 40
- computerised maintenance management systems, 211
- condition
 - measurement, 53
 - monitoring, 49, 50, 188
- conflict *see* disagreement and conflict
- construction sector, 186, 187, 189, 193
- continuous improvement, 2, 6, 14, 33, 37, 108, 110, 124, 213, 214, 216
- continuous professional development (CPD), 202, 203
- coordinated activities of organisations, 11, 29, 214
- costs and expenditure
 - drivers, 219
 - life-cycle, 21, 22, 55, 186
 - operating (opex), 30, 33, 52, 218, 219, 220, 225
 - of ownership, 50
 - whole-life, 20–21, 27, 54, 57, 58
- culture
 - acceptance, of, 83
 - authoritative, 81, 84
 - cautious vs risk-taking, 81, 82
 - certainty, of, 82–83
 - collective, 82, 85
 - consequences of failing, 74–75
 - creating a working, 75–80
 - individualistic, 82, 85
 - organisational, 57–58, 69–94, 102, 116, 227–228
 - assessment methodology, 83–84
 - change, 70–72, 79, 83
 - definition/meaning, 69–75
 - dimensions, 80–83
 - maturity, 89–90
 - origins, 73–74
 - seven revelations, 90–91
 - shaping, 84–89
 - participative, 81, 84
 - power, 88
 - questioning, of, 83
 - risk-taking vs cautious, 81, 82
- cyber-physical systems, 46, 51, 166–167, 177, 186
- data and information, 21–23, 51–52, 55–56, 173–177
 - AMCL *see* AMCL
 - architecture, 170
 - change leadership and flow of, 129
 - collection/analytics/management, 55–56, 57
 - digital *see* digitalisation
 - quality, 4, 51, 59, 176
 - research on, 51–52, 55–56
 - security, 83, 176–177
 - sharing, 55–56, 130, 172, 177
 - vs restricting, 83
 - smart infrastructure and, 172, 173–177
 - systems, 22, 170
 - transparency, 184
- decentralisation, 130, 186
- decisions (and decision-making), 19, 20, 42, 49–50, 51, 192, 193, 212–213, 216, 222
 - AMCL *see* AMCL
 - climate change, 152–154
