Editorial

R. Driscoll, Honorary Editor

Welcome to this dedicated issue of *Geotechnical Engineering*.

In my editorial in January 2004 I invited contributions for a dedicated issue on 'The Geotechnics of Transport Infrastructure'. You can see the first fruits in this 'bumper' edition; further submissions, currently clearing the publications process, will appear in issues in January and April 2005. The response to the call for papers has been most encouraging and I should like to express my thanks to the authors, referees and members of the advisory panel, both at home and abroad, for

their hard work in submitting and reviewing the many papers received.

The success of this initiative has prompted the advisory panel to consider further dedicated issues and I hope to announce the next one later this year.

A handwritten signature in black ink, appearing to read 'R Driscoll', with a stylized, cursive script.
