We have already completed a year of work on *Emerging Materials Research* and are now ready to publish the first issue of 2021. Having reached a high Impact Factor in the previous year, we hope that this will continue during forthcoming years with our reader, reviewer and author contributions.

In the first issue of 2021 there are 15 valuable papers; I am sure each paper will be helpful for our readers and will make a significant contribution to the field of materials research.

I extend my gratitude to the authors, reviewers, related members of the Editorial Board and Editorial staff for their contributions and making the publication of this issue possible.
