 Appendix B A surveying overview	 297
<i>With contributions from Richard Groom</i>	
B.1. Introduction	297
B.2. Geospatial frameworks	298
B.3. Ordnance Survey	298
B.4. Survey controls	299
B.5. Survey methods	300
B.6. Site surveying	304
B.9. Who carries out dimensional surveys?	310
Note	310
References	310
 Appendix C Principal organisations for reservoirs	 313
 Index	 315

About the editor

Andrew Pepper BSc (Hons), CEng, C.WEM, MICE, FCIWEM has worked for public organisations and consultancies in the UK and abroad, and for 30 years has worked as an independent consultant, specialising in river engineering and reservoirs.

He has been a member of the Reservoirs Supervising Engineers' Panel for 30 years, and the Honorary Technical Secretary for the British Dam Society for 10 years.

The British Dam Society was asked to provide a lead author/editor for a proposed book on reservoir management. As Andrew was close to retiring, he offered to take on the role. However, the book would not have been possible without the help of a great many members of the British Dam Society, some of whom wrote sections, and many more of whom contributed useful comments, ideas on drafts and photographs. Andrew is indebted to all of them.

About the contributors

Very many members of the British Dam Society (BDS) have contributed to this book, and I am indebted to them all.

Those who helped form the structure of the book are:

Matt O'Brien of Natural Resources Wales

Rupert Thorp, volunteer specialist to the National Trust, who also worked with me throughout, checking text and providing invaluable suggestions.

Those who wrote sections of the book are:

David Brown (Canal & River Trust) – conduits

Richard Groom (Environment Agency) – surveying

Ken Grubb and **Russ Digby** (KGAL Consulting Engineers) – mechanical and electrical equipment

Bill Gush (Land & Water Services Ltd) – dredging

Neil Kempton (Mott MacDonald) – siphons and drawdown

David Windsor (Canal & River Trust) – incidents and emergencies.

Those who provided information, reviewed parts of the book and suggested improvements are:

James Ashworth (Scottish Environment Protection Agency)

Matthew Atyeo (formerly with Bristol Water)

Helen Beeden (United Utilities)

Newman Booth (Yorkshire Water)

Kieran Brazier (Department for Infrastructure, Northern Ireland)

Anthony Clayton (Environment Agency)

Nick Folkes (United Utilities)

Robin Harris

Ian Hope (Severn Trent Water)

John Houghton (United Utilities)

Stuart King (SSE)

Roger Lewis (Environment Agency)

Clare Pailing (United Utilities)

Chris Parks (United Utilities)

Viktor Pavlov (Black & Veatch – formerly with United Utilities)

Bryn Philpott (Thames Water)

David Rebollo (Mott MacDonald)
Pam Rigby (United Utilities)
Duncan Scott (SSE)
Jon Scott (Bristol Water)
Lisa Stewart (Centre for Ecology & Hydrology)
Andrew Thompson (United Utilities)
David Trubshaw (Environment Agency)
Sam Tudor (Dwr Cymru (Welsh Water))
Lei Yang (Arup).

Many other BDS members, in addition to those mentioned above, contributed photographs.
